Read more in our FIFA 22 Feature Overview The technology allowed EA to pack more animations on the ball to make them look more realistic and more authentic to the real-life sport, and if you look closer in-game, you will notice more individual body parts, especially while sprinting. Now the game is more authentic than ever. But how is FIFA 22 actually performing? FIFA 20 was the first FIFA title to feature a new game engine. The year was marked with mixed results for FIFA. There were some great additions and improvements like player likeness, more animations and the brand new trailer, but there were also some major bugs on the console versions of the game. FIFA 21, which featured a new game engine again, didn't have the same issues. However, the next two versions of the series, FIFA 22 and FIFA 23, will be using the same engine as FIFA 21 and that engine has not been proven to work all that great on console. So while FIFA 22 looks great on consoles, FIFA 23 looks just downright horrible. There have been countless players who have played the game and they are complaining about the new game engine in FIFA. We have joined a team of one FIFA video game journalist to try FIFA 22 on PS4, Xbox One and PC. This means we will not be working with PC issues, but rather focusing on some of the console specific issues, and the problem that I think is the worst. FIFA 22 launch-day gameplay problems FIFA 22 loading problems on PS4 and Xbox One Here is the problem that is most discussed at launch: There are a lot of issues on the consoles when it comes to loading the game. To make sure that we understand the issue, we will try to load and play FIFA 22 on Xbox One and PS4. However, before we do that, you have to make sure that you don't have any updates or patches for FIFA 22 installed. Here is what we did: We turned off all the connected consoles and PC where the game is installed. We turned on the console and everything was reset to the default state, and we started the game and then loaded a demo. We started a game and we experienced the same issue. We couldn't open the game and we couldn't load a demo. We were stuck. We turned off all the connected consoles and PC where the game is installed. We turned

Features Key:

- **Revolutionary motion capture technology.** One of the greatest innovations in video game sports simulation, "HyperMotion!" technology makes moves and tackles feel completely right, creating an authentic on-pitch gaming experience. Your team mates will react exactly how they would on the pitch and you'll perform your moves just like your hero would. And you can be sure that what you're doing really matters.
- **FIFA's evolved gameplay mechanics.** New ways to score, run, pass, tackle, defend and create goals.
- **Featured Premier League and UEFA leagues.** Enjoy your favorite clubs in the Pirlo, Tevez, RVP or Rooney era.
- **Real life one-touch passes and finishing.** Execute the highest-tech short-throw move into a pile of defenders in the box. Or strike a last minute penalty with a precise, near-perfect finish.
- **FIFA Ultimate Team.** Take your favorite real-life player and build them into superstars. Compete in matches to earn and spend FIFA coins to unlock and upgrade legendary players. With more ways to compete than ever, competition mode adds a whole new dimension to the Ultimate Team experience.
- **Intuitive controls and movement physics.** With new gameplay mechanics, player collision, improved AI and better player reading of ball and player movements, FIFA 22 takes the competition to the next level.
- **Brand new FIFA World Cup.** For the first time in FIFA this year, the FIFA World Cup returns to new host FIFA World Cup Brazil 2014. So get ready to prove why you're the best football player on the world in a career that lasts through the whole tournament.
- **Intuitive touch controls.** Intuitive touch controls, make attacking moves feel fluid and natural, enhanced ball first contact, one-touch passing and goal-scoring first-time assists. Over time, your play style will influence how

News Aston Villa striker Christian Benteke has been ruled out of England's World Cup qualifier against Slovenia next month as he continues his recovery from a knee injury. A new specialist FIFA has been added to the line-up for the London Olympics. Most notably, it's the new Everton manager David Moyes. Former United manager Moyes scored 85 goals during his three-year stint with Liverpool, Everton and Real Sociedad. Have your say on the issue PES is becoming more and more of an iOS & Android exclusive and it's killing PC gaming There are a ton of PC gamers using the PC gaming platforms for many things. For me, I'm not on the platform for games. I play when I want to play and play what I want to play. For most people however, they love the PC gaming platforms. [...] Locked Posted by Mark Apr 23, 2018 I looked at the pre order on PES Online the other day and the specs were higher than the PS4. I got the PS4 version because of the pre order offer on Fifa. I thought the value for what you got was good. I'm still playing on Ultimate Team, its a challenge. The one thing missing was a FUT draft, you would have to play a bunch of matches to get the main draft. I was happy with the series until they started with exclusives and removed FA cup. What's new:

- **Dynamic Pace Battles - Experience the exhilarating new Battle Pace system, where the pace of the match is the pace of the battle. The two teams, in different colours, will play a full match, with each team scoring a goal as the action unfolds. Each team has its own set of rules, such as set pieces, off-target shots, free kicks, etc.**
- **Dynamic Tactical Adjustments - Positioning, formation and template selection in Ultimate Team have been vastly improved. Playbooks are smartly assigned, so you don't need to play through the entire game to make the right selection for your team.**
- **New Player Traits - Gain situational control of your players by assigning them from their level positions. For example, players excelling in long shots and penalty kicks will excel in those areas.**
- **Direct Free Kicks - Feel the force and power of FK. My team plays direct free kicks. You play direct free kicks so you can play beautiful football.**
- **New Skill Control - Perform new combinations of skills. Finally you can turn on new special moves and attack entirely through headshots.**
- **Character Ratings - You now have options to customize ratings for your specific strikers and complete teams. These customizations are standard among the world's best players.**
- **New Commentary Team Options - Add your favorite commentator and get in on the action like never before - listen to your favourite soccer commentators and be a part of the game's commentary team.**
- **New Matchmaker - The new Matchmaker allows the game to recommend players by their likes and get to know your team better. Players' traits and roles inform that recommendation.**
- **Goal Reporting Improvements - Gamers can now report replays in specific scenarios with new goals to report.**
- **New Player Models - Players are now more realistic, with increased fidelity of movement, making your fights more visually intense.**
- **New Make-up, Player and Division Scoring Progression - Establish a starting point for your career: player, division and club scoring rankings have been further improved.**
- **Ranked Seasons - Your FIFA achievements now depend on your overall progress. Over time your leagues will change from Bronze, Silver, Gold to Rivals Only to Pro, then all the way to**
