Fifa 22 Features Key:

- The Living Players: Prepare yourself for the living legends of the game, with enhanced Living Players: Introducing the FIFA 22 Coverstar system, players’ characteristics are based on performance statistics. Choose to play with legends like Lionel Messi or Neymar, or discover brand new, never-before-seen talents.
- Soul Glitch Off: Fight an increasing tide of backlash and return to the roots of the series. Hints and features will be highlighted in-game and a new defensive offside line will be more intuitive.
- HyperDrive: for the first time in the series, speed is ingrained into the way the game works.
- ProZD – The most accurate passing system to date. Players are given a defined way in which to pass, and not a free reign to fling it all at once.
- Multi-Receiver Passing: The long-requested feature for the passing game, you will now not only receive assists from more dangerous players, but make those passes yourself.
- Guide Coverage: Your shooting and passing will both be unlocked and more easily controlled by you in this new highly-advanced defensive system.
- Fusion: A new defensive setting that will deny teams space that they need in both possession and attack. For the first time you can play the game the way it was meant to be – with the emphasis on defending.
- Referee: With improved decision-making this year, your decisions will help shape the final result of games.
- Bigger Style: A new alternative on top of regular formats that can be used to transform the look of the pitch in each game.
